CORY MINE IS TRYING OUT NEW MACHINERY

A. W. Duer of San Jose ,president of the Cory Mine Company, Ltd., owners of the Cory mine in the Magalia district, announces that present curtailment of operating forces is due to difficulty with the automatic washing equipment recently installed. "We are promised that the washing machine will be made to give satisfactory service by April 1st. If not," he announced, "we will go back to washing the gravel by the sluice-box method."

Only four men are at present employed at the Cory mine. Duer says that when the gravel can be handled properly between fifty and sixty men will be employed.

No successor to C. H. Thurston, who recently resigned as manager to superintend dredging work at Merced, has as yet been engaged. Several exprienced men have been considered, and it is planned to engage a new manager shortly.

It is expected that it will require some time to unwater the Pine Tree mine, located in the Magalia district. Work is progressing steadily and the property has been dewatered to the incline. old equipment is being removed from the mine, and much of it will be replaced with new machinery.

iHgh speed drills are being used in making tests for minerals in the Berry Creek district. Considerable depth can be reached by this method at comparatively small cost. Samples of soil, gravel and quartz coming from the holes are tested, and when results warrant regulation shafts and tunnels are cut. Mining men look favorably upon the innovation, and claim that fewer miners , once started, are apt to be failures. Tests of this nature have been successfully made in locating indications of old channels in the Magalia district.

NUGGET GETS FIRST NEWS

Early last Friday morning The Nugget, Nevada City's mining paper, was distributed to the business houses of the town and in a few minutes the glad tidings of the leasing of the old Champion mine group, at the western edge of the city limits was stirring the hearts of our fellow citizens.

The reopening of this old property which has a $10,000,000 past jroduction record caused a thrill to pass up and down the streets as the glad news spread.

When this old property gets on a production basis Nevada City, Nevada county's county seat, will be a prosperous city.

Many issues of The Nugget were sent to relatives in other sections of the world, for at once time Nevada City was a thriving mining town of many thousand people, and had even been suggested as the proper location for the state capitol.

NEW HYDRAULIC WORK

Fred T. Smith and Oscar Patton were in Nevada City this week investigating several quartz mines. Mr. Smith is operating the Bigelow mine in Sierra county.

Mr. Smith stated that small hydraulic operations were started this week and they are now busy washing the surface along the side of the Bigelow claim with the view of saving values from the old dump and uncovering the veins to determine methods of proper development from the underground workings.

CHAPTER ENDORSES BILL TO STOP GOLD MINE TAXES

Endorsement of the Englebright bill, seeking to exempt gold mining from Federal taxation, featured the recent meeting of the Los Angeles chapter of the Mining Association of California. The question of a moratorium on assessment work and the proposed amendment of the Corporate Securities Act to admit of syndicate financing of mines without a permit, were set over to a special meeting held on March 29th at the Engineers' club, Richfield building.

Considerable difference of opinion was in evidence on the question of a moratorium on assessment work for 1931-32 and J. F. Duling and Colclock Jones, mining engineers of Los Angeles, were invited to address the special meeting in favor of the proposal while Edward Brooks is to take the negative side of the question.—Mining Journal.

YUBA PLACER VALUES ARE RUNNING HIGHER

L. A. Smith of the River Placers gravel mine on the middle Yuba river recently and gave a Nugget reporter the following interesting information concrning their property:

The River Placers have reacheo the outside or east channel of the middle Yuba river on Horseshoe bar.

This outside channel was found to be seven feet deeper than the inside or west channel on which so much work has been done the past eighteen months.

Values in this deep channel are good—running to much heavier gold than here-to-fore found.

The channel was reached and an incline run from the end of a 50 foot crosscut. A new shaft is going down to tap this channel at its deepest point. This new shaft will be the working shaft.

Twelve men are employed and the new shaft will be completed within two weeks.

E CLAMPUS VITUS
Revived

Two to one you can't read this right off!

Notice is hereby given to all members of the ancient and honorable Society of E Clampus Vitus that you are ordered to appear and join with the other members of that notable society at the hour of twelve o'clock noon on Tuesday the first day of April in the year nineteen hundred and thirty-two at the Clift Hotel for business important to the organization.

Fail us Not.

The order once had active lodges at Camptonville, Downieville and the other mountain mining towns. It was noted for various works of charity; one time at Downieville they put a new shingle roof on the minister's house, and later on, when they found him fit to be in the order, took in the minister.

The revival movement is being furthered by Carl I. Wheat, an attorney of San Francisco, former counsel for the Railroad Commission. Wheat is also student of early California history, having published in the California Historical Society, the diary of Charles De Long, an outstanding figure in local early day history.

A large number of the revived organization are planning to migrate to Camptonville over Memorial day holiday, hold a ceremonial here and take in the surrounding towns where the Clamper once flourished.

WOMEN'S CIVIC CLUB HAS VARIED ACTIVITIES

The Women's Civic Improvement Club has just completed a busy year. The secretary, Mrs. G. W. Gildersleeve, has listed the following activities:

In the months of April, May and June, 1931, a number of good programs were arranged and from these the sum of $60 was given to the public library fund.

The second annual flower show was the main event of August, 1931, from which the sum of $70 was realized. This was given to the library committee for work on the library.

In September a class in International Relations was formed and meetings were held each Tuesday afternoon at the home of Mrs. R. J. Bennetts.

The sum of $81.25 of club funds was issued to purchase 25 additional lockers at the high school.

In November 1931 $5 was donated to the disabled war veterans fund and the library lights were installed at a cost of $103.64.

During December the club sponsored the annual community Christmas Tree and program, and a surplus of $14.68 in cash donations to the fund was given to the Nevada City Benevolent society.

A food sale in January cleared the sum of $50 and in February the club formulated plans for the play "Kempy" to be given April 6th.

The club took a prominent part in the Washington Bicentennial celebration February 22nd by dedicating trees. They co-operated with the public schools and othr fraternal societies at this time.

Other accomplishments were the obtaining of a speaker on the subject of motion pictures and a class in bridge formed which meets on Wednesday afternoons at the home of Mrs. Nye.

SLYE WINS IN SUIT TO RECOVER MONEY

Judge George H. Thompson of El Dorado county, who presided at the trial of the case of Joseph Slye against M. J. Brock, mayor of Grass Valley, has rendered a decision awarding judgment in favor of the plaintiff and decreeing that Brock must repay to Slye $10,800 with interest at 6 per cent since June, 1928.

The action was brought by Slye to have rescinded a contract entered into by Slye and Brock, whereby the latter agreed to convey to Slye 52,000 shares of stock in the Grass Valley Boundary mines of Grass Valley.

Evidence showed that the stock was impounded with the corporation commissioner of the state and that Brock could not sell it without the written permission of the corporation commissioner. This permission, according to the evidence, had never been received.

Brock received $10,800 on account of the purchase price, and return of this was demanded by Slye when it appeared that Brock could not deliver the stock.

The litigation is part of the many legal tangles in which Brock and the Grass Valley Boundary Mines company are involved.

UNITED SHAFT MINE MAKES STEADY PROGRESS

Mr. Mitchell, who is owner of the M cafe of Nevada City, has a crew of three men assisting him in the opening of the property he recently leased, and which is about a mile and a half below Grass Valley.

The mine will be known as the United Shaft.

Within the last few weeks Mr. Mitchell has sunk 37 feet on the new 6x8 foot shaft. A headframe has been built and he is running a compressor and hoist in his operations.

The ground lies 2700 feet from the old North Star works and the shaft is being sunk in dissolved baryite and sulphides.

PIONEER CELEBRATES HIS 97TH BIRTHDAY

Thomas Jackson Byrd, a well known pioneer of this section, resident of the Masonic home at Decoto, celebrated his 97th birthday a few days ago at the home. As a matter of thoughtfulness and good wishes the members of his home lodge, Gravel Range No. 59, F. & A. M., and other friends, wrote him a letter congratulating him upon reaching this fine old age.

Byrd is one of the oldest pioneers of this part of the state, there being no other people alive here who were here when he came. He was born in Georgia, but spent most of his life in this section, followed mining principally, and never worked out for pay. He is in excellent state of health and as good mentally and physically as he was 26 years ago. He has a jovial and extraordinary disposition, and is known as the "kid" of the Masonic home.

FORMER RESIDENT OF NEVADA COUNTY DIES IN SAN FRANCISCO

The passing of Marcus J. Hein, formerly of French Corral, Nevada county on March 28th, marks the ending of a well spent life of one of the county's oldest settlers.

Mr. Hein having reached the ripe old age of 84 years, passed on after failing in health very noticeably in the past six months.

He was born in Germany, December 4, 1848 and at the age of 17 years immigrated to the United States arriving in California during the gold rush days; at first locating on a homestead at Spenceville where on March 12, 1882 he was joined in wedlock to Alice Nichols, daughter of one of California's early pioneers. Two sons were born to the couple while on the homestead and in 1908 the small family moved to the placer mining town of French Corral, where they lived many years and gathered about them a host of friends.

During this time seven more children were born and all except one daughter, Alice Imogene, survive; she having died at the tender age of eight years.

In 1908 the family moved to San Francisco where Mr. Hein spent the sunset days of his life with his faithful wife and surrounded by his large family of children and granchildren.

On March 12th of this year Mr. and Mrs. Hein celebrated their 49th wedding anniversary, with all the children present, as his fast failing health made it obvious that the other anniversary could not be reached.

Those who mourn the passing of devoted husband and father are, Mrs. Alice Hein, widow; Mr. and Mrs. Danson P Hein and three children; Mr. and Mrs. Herman H. Hein and four children; Mr and Mrs. C. C. Morris and daughter, Dorothy; Mr. and Mrs George A. Wara, Ida I. Hein; Mrs E. L Foucer, Marcus I. Hein, and Mr. and Mrs. Frank Courneen, all living in the bay district.

NEWS IN BRIEF

Itinerants Asked to "Move On"—
At an emergency meeting of the Grass Valley city council Monday police officers were instructed to clear the city of idle men under the "move on" order. The authorities state that the influx of unemployed men there at this time is the greatest since inception of the depression, and that many of them are apparently indifferent as to whether or not they secure work. For the most part they live by soliciting money and "handouts" and this has reached a volume where it has become a nuisance. Recently two homes were robbed in a night in one neighborhood in Grass Valley. In these peaceful mountain towns house robbing is almost an unheard of occurence.

Davis Farm Picnic—
The Davis Farm picnic is to be held April 16th. It will be a busy and interesting day for all. Many students from the different farm clubs in the high schools of the state will be present having taken part in the different stock judging contests the day before. There will be splendid exhibits of livestock, poultry, dairy products, landscape gardening, besides many other interesting subjects to be viewed. The winners of the different judging contests will be announced on that day also.

Grand Trustee Visits—
Tuesday evening an official visit was made to Hydraulic parlor, No. 56, N. S. G W., by Samuel Shortridge, Jr., one of the grand trustees of the grand parlod He found the parlor books and financial affairs of the local parlor in fine shape. He delivered a splendid address to the members present, of the affairs of the order throughout the state and spoke of their preserving the historic buildings and marks in the state, those of the northern part of California being particularly interesting.

Penney Store Manager About Again
Eary Covery, manager of the J. C. Penney Store of Grass Valley, is recovering from a recent operation of several weeks duration. His many friends are pleased to see him down town again. (On going to press we learn he has returned below for a rest.)

Mrs. Huy Entertains—
Mrs. Joe Huy entertained delightfully recently in a surprise party honoring the birthday of Mrs. Theodore Rundy. The afternoon was spent in playing cards. Mrs. William Gracey won first prize, Mrs. Ray Hays, second and Mrs. William Youyer, third. Those present for the happy occasion were, Mesdames. Ray Hays, Leland Smith, Theodore Rundy, William Fouyer, William Gracey, Ray Davis, Miss Alma Marsh and Mrs. Huy.

Mr. and Mrs. Carl Ivey of Chico were recent guests at the home of Mr. Ivey's mother, Mrs. Nellie Veale in Nevada City.

Walter Bond is home after spending the winter in Burlingame with his daughter.

Mrs. Elsie Willoughby returned yesterday from Marysville where she has spent the past week.

B. H. Lyon of Sacramento was a brief caller at the Nugget office yesterday.

PASS CARS ONLY UPON LEFT SIDE, SAYS CATO

Sacramento, April 7.—E. R. Cato, chief of the California highway patrol, today reminded motorists that it is unlawful for any motor vehicle to pass upon the right side of another vehicle except within corporate limits of a city.

Several severe wrecks have occurred in recent months because motorists have misinterpreted the meaning of the new law permitting passing to the right under certain conditions, Cato said.

The new section of the law, which became effective August last, permits passing on the right in city streets having two or more parallel lines of traffic running in the same direction.

Cato pointed out this section does not apply to highways outside the limits of cities no matter how many parallel lines of traffic run in the same dircetion. Wrecks have happened where drivers have run into sand on the right and turned over.

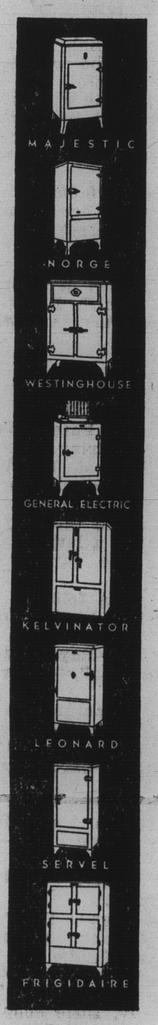
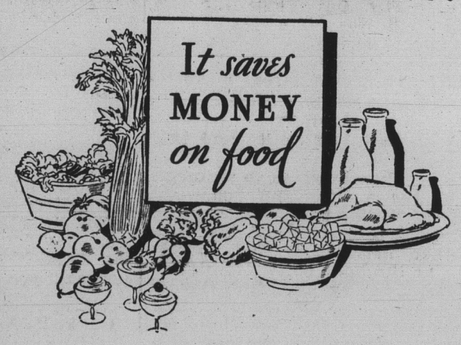
AN·ELECTRIC·REFRIGERATOR IS·NOT·A·LUXURY.....





ONE WOMAN in moderate circumstances enjoys the convenience of electric refrigeration. Another doesn't. Have you ever wondered why this is so?

The person who looks at the facts knows that the electric refrigerator is not a luxury. It saves money on food. Milk, meat, and vegetables stay fresh for days. They do not spoil, because the electric refrigerator automatically maintains a temperature below 50 degrees, the safest temperature for keeping food. This saves 10 per cent of your food bill. In the average family of four it amounts to $40.20 a year, according to recent studies.

Then too, the electric refrigerator saves from $85 to $102 a year by enabling you to buy large quantities of week-day and Saturday specials and keep them safely until used.

Besides being a wise investment, an electric refrigerator is a convenience. You know your food will keep safely.

You may enjoy an electric refrigerator at once. A small down payment will bring the refrigerator of your choice to you today.

FRENCH CORRAL

FRENCH CORRAL, April 4— Beautiful April is here and everyone who has ever lived in French Corral during this month, has a memory picture of beauty which they long to see again. Trees and flowers abloom, birds singing, bees humming! Everything seems to have awakened to the joy of living.

So far we have been treated to April showers.

Many prospectors visit this part of the county.

Mr. Jno. Smith, who did some mining here a year ago, returned last week.

Mr. J. Schears made a trip to Columbia Hill Thursday.

Columbia Parlor, No. 70, N. D. G. W. held a meeting Friday evening. Mrs Elsie Schwartz, who is the Parlors first vice- president, made a trip from Grass Valley to be in attendance. She was accompanied by P. G Pres. Alison F. Watt, and D. D. G Pres. Mrs. Beatrice George, and Miss Annie Conlin of Manzanita Parlor No 29. After the meeting of lodge, all enjoyed a social time around the banquet table, where refreshments were served. The members of Columbia Parlor hope to have those pleasant meeting repeated.

Miss Frances Moulton and Miss Irene Pagnolia came from Sacramento Saturday evening to remain over Sunday. Miss Pagnolia visited with her aunt, Mrs. C. Wodell, at her old home in San Juan.

Mr. and Mrs. J. W. Culver made a trip to Grass Valley Saturday at which place they were met by Mrs. Culver's son, Edward Wilcoxon of Wise Station near Auburn. Mrs. Culver accompanied her son to his home where she will visit for a while.

NEW MANAGEMENT

It was not without a certain feeling of pleasure that I assumed this week the management and editorship of The Nevada City Nugget, for I consider Nevada City an ideal place to live, socially and climatically. Furthermore, I consider, I believe without undue optimism, this district to be decidedly on an uptrend. Everything points that way. The economic depression will have to end sometime soon. There is a huge shortage of gold, there being nowhere near the amount in existance necessary to carry on the world's commerce. The price of silver will have to rise to at least a dollar some of these days, carrying upward with it all of the other metals. Then we shall see the greatest activity in mining the world has ever known—for two reasons. First, during the past ten years or so of intermission science and engineering brains have found many improvements to methods of mining. Second, following a cycle, the trend of the flow of investment money is back toward the metals. I believe also many blue sky laws are due to be modified or repealed. Mining, to be sure, like life itself is uncertain—a gamble—and legislation can never altogether eliminate the risks. The chief purpose of many blue sky laws was to protect the widow and the innocent, but in these days of the public print, universal education and bankers' advice there remains very little hazard to endowments or lifetime savings from mine promotion. "Gold is where you find it" and honest men will fail twenty times or more to one success—and the failure costs as much to develop as the pay streak. Someone has to supply the capital if there is to be either success or failure in a mining venture. I do not contend that all protective legislation should be done away with, but I do believe laws should be less stringent, giving honest promotion a little better chance. The Nugget, under the able ownership of the Willoughbys, has definitely served this field and aided greatly in its progress, and I promise I will do all my capabilities will permit to continue this service. It takes time to get acquainted and to learn conditions and needs, so I ask your indulgence and your co-operation. I am not entirely without experience in mining circles, having recently published The Randsburg Times and The Mojave Record for some years. Drop in, and let's get acquainted!

Wesley L. Davis, Jr.

ANOTHER WAY OF MAKING MONEY

The unemployed in Nevada City present considerable of a problem, but to our mind, the chief problem here is that of housing. How can we expect the city to grow if we cannot house the ones who come here to live? From reports gathered the past week, some thirty houses could be rented or sold tomorrow, if they were available. Lots, building materials and labor are lower priced than for years—and probably for years in the future—so we fail to understand why some enterprising capital does not come to the rescue of the inflowing population and provide dwellings. It looks to us like a "sure thing." There are many known blocks of ore in the district, and once rehabilitated the camp will prosper for many years. Let's start an active "building and loan"—or something to get houses built.

—0—

The announcement last week in The Nugget concerning the reopening of the Champion at a near date has been regarded by many as a sort of an "April fool" joke, coming as it did on April 1. However, we have the information from a reliable source, and it is sure to mean considerable added activity in the district. The Nugget will publish more news of this as soon as it is released.

SAN ANDREAS ACTIVITY
(By RAY D. HARRIS)

San Andreas, April 6.—Underground operations at the Ford mine, near San Andreas, being operated by the Ford Mining and Milling Co. of Los Angeles, have been increased from one to two shifts daily and the working force from five to ten men. Superintendent H. A. Derrer states that a new raise has been started on the west vein on the 300-foot level in an orebody showing a length of 150 feet and a width of from four to 10 feet. Assays indicote value of the ore from mill grade to $50 a ton in gold. Water in the 750-foot incline shaft on the property has been lowered to the 400-foot point.

British Columbia mining interests represented by J. P. McFadden and D. Brewster Blyden, Los Angeles mining engineers, have acquired from W. G. Gibson of West Point and associates, under lease and bond, the Woodhouse mine near that town. A new air compressor has been delivered on the ground and unwatering of the Gibson shaft has been started, it is stated. An extensive program of new development work will be inaugurated in the early future to tap orebodies which yielded heavily to the early-day operators of the property.

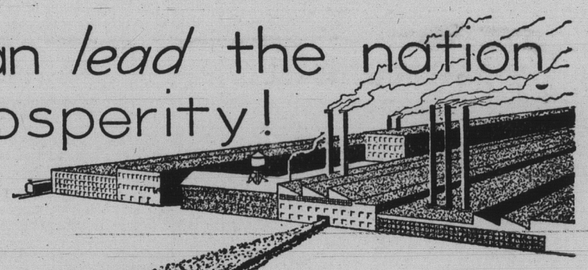
California can *lead* the nation back to prosperity!



Join Bank of America's
"BACK TO GOOD TIMES" MOVEMENT

SIGNS OF BETTER TIMES

For the first time in six months, both payrolls and average weekly earnings show an increase over the preceding month. (Business Review, March 15.)

Reliable statistics show that 60 per cent of the farmers and fruit growers of California *made money* during the past year.

During January 1932, 16 per cent of the 64 leading California cities reported building permits in excess of January 1931.

Despite worldwide business adjustment, the value of California's manufactured products during 1931 exceeded *3 billion dollars.*

Join in this constructive statewide effort to revive the world-famous California spirit of initiative and enterprise and lead the nation back to normal conditions . . . Enlist your surplus dollars in Bank of America's timely movement for the quick return to a sound prosperity . . . Put your inactive funds to work immediately through the time-tested banks of your state . . . Every dollar deposited in these institutions releases from 5 to 10 dollars in credit for general business purposes . . . The only money that benefits the individual or the community is ACTIVE MONEY—the money that finances industry, that builds, develops and provides jobs for everybody . . . For example—just one extra dollar a day deposited by Bank of America's hundreds of thousands of depositors for the next ninety days, would release A HALF BILLION IN CREDIT! . . Immediate wholehearted co-operation with the banks of this state will give a powerful impetus to every line of industry . . . Put your money safely and constructively to work where it will earn interest for you and *help bring back good times.*
